Amoco Oil Company  
John G. Huddle, Director  
Environmental Control and Planning  
200 East Randolph Drive  
Post Office Box 6110A  
Chicago, Illinois 60680

Dear Mr. Huddle

The closure plans submitted and prepared by John G. Huddle, dated July 12, 1984 and November 12, 1984, and received by this Agency on July 16, 1984 and November 14, 1984, to close the hazardous waste storage area are hereby approved. The approval of these plans is further subject to the following modifications and conditions.

1. Removal of soil in the "South Flare Pit" and the "Spray Pond" must continue until sulfide levels below 100 ppm are reached. The certification of closure must contain sufficient information to justify this level of sulfide has been reached.

When closure is complete the owner or operator must submit to the Director certification both by the owner or operator and by an independent registered professional engineer that the facility has been closed in accordance with the specifications in the approved closure plan. These certifications must be received at this Agency within 30 days after closure.

This certification is required to be submitted to the following address.

Illinois Environmental Protection Agency  
Division of Land Pollution Control  
Permit Section  
2200 Churchill Road  
Springfield, Illinois 62706

IEPA approval of the closure plan does not relieve Amoco from applicable Part 265 Subpart F Groundwater Monitoring requirements, or from any post-closure permit requirements of USEPA.
